

# Counsel On Call

## Overview

Counsel On Call was formed by experienced attorneys with a single purpose: To design a service-oriented company for highly skilled attorneys who want flexible work positions with the nation's leading law firms and corporate legal departments.

With attorneys currently working across the country, Counsel On Call has a tremendous record of growth. The company has received numerous awards both locally and nationally, including being named to the Inc. magazine list of America's 500 fastest-growing, privately held companies for three consecutive years. President and founder Jane Allen is a past "Entrepreneur of the Year" recipient.

## History

Counsel On Call was created by Jane H. Allen in 2000, born out of personal experiences as a practicing attorney. While she enjoyed the practice of law, Allen was frustrated with the lack of opportunities for talented attorneys who didn't want to pursue partnership in a law firm. Additionally, as someone who previously held responsibilities over cases at a law firm, she knew there had to be a better way to manage the constant changes in workload other than the hiring of more associates.

With these factors in mind, Counsel On Call was formed as a way for talented attorneys to obtain flexible work positions in their chosen field. It also provided an attractive new source of high-level attorneys for law firms and corporate legal departments without adding to their respective payrolls.

Headquartered in Nashville, Tenn., the company also has offices in Atlanta, Boston, Charlotte, Chicago and Memphis, with attorneys working from coast to coast on hundreds of projects.

## Scope of Services

Remaining true to its core business – providing talented attorneys for law firms and legal departments on an as-needed basis – Counsel On Call also offers many other services, including a special Litigation Support Division dedicated solely to providing teams of attorneys for case support.
